Assessment: Copy of 7.1-7.4 Quiz V3.docx

Number of Questions: 12

Question Summary

Q#	Standard	Topic	Rigor Level
1	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
2	A-REI.B.4	Solve quadratic equations in one variable. Medium	
3	A-SSE.A.2	Use the structure of an expression to identify ways to rewrite it. Medium	
4	A-REI.B.4	Solve quadratic equations in one variable. Medium	
5	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
6	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
7	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
8	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
9	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
10	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
11	A-APR.A.1	Understand that polynomials form a system analogous to the rational numbers, closed under addition, subtraction, and multiplication; Medium	
12	A-REI.B.4	Solve quadratic equations in one variable. Medium
